To: The Managing Director
From: Neil Sherring

Good afternoon,

I know this may come as a surprise but you can now get a 0845 local rate telephone number with **NO CALL CHARGES**. In fact, all you pay is a simple annual fee and a small one-off connection charge.

Yes, I did just say that. Absolutely no call charges to pay whatsoever. Too good to be true? No, it is absolutely true; our buying power means we are the only company in the UK to provide this **unique deal**.

All other 0845 providers charge you for every call you receive, e.g. BT currently charge 6.5p per minute. This difference makes our 0845 service the best deal for your business.

0845 numbers allow your customers to pay the local rate when they call you from anywhere in the UK. Not only do they encourage people to call you, but they are also proven to **increase response rates** to advertising and marketing campaigns and convey a commitment to customer care.

0845 numbers work in tandem with your existing telephone number(s), so they can be phased in at any time, to suit your business.

Also, as your 0845 number will never change, it will move with you if your business relocates, ensuring your customers never lose touch with you.

SPECIAL OFFER IF YOU REPLY TODAY

Faxback your enquiry today and if you buy an 0845 number we will get your number listed **FREE OF CHARGE** in every telephone directory in the UK, giving your company a local presence nationwide! (BT charge their 0845 customers £300 per quarter for this service).

Yours sincerely,

Neil Sherring

****

IMPORTANT: We have just secured a new range of highly memorable 0845 numbers. To take advantage of the best numbers, please complete this form today and faxback to us on **0845 130 2222** for a list of currently available numbers.

Pay Less Than 3% Of Retail Price.

Have you ever wondered what happens to the millions of near perfect goods that are returned to High Street shops like Argos, Next and Index, when a customer has decided that the item was not what they were looking for? Or the piece of clothing that doesn't fit? Most High Street shops and Mail Order catalogues have a 'trial' period for all the goods they sell. Any items returned under these 'trials' are never resold by the shops. These retailers have millions of items they need to dispose of fast. The goods, most unused and in near perfect condition are sold for a fraction of the original price. In this booklet we list all you need to know to get your hands on these products, including dealers that will sell to anyone who has the cash. You can literally buy products for pennies in the pound.

Fax 0845 118 2000

To: The Managing Director
From: Anthony Forrester
Pages: 1 (just this page)

Hello,

You may recall that we previously sent you information about our services. As of 1st January 2002 we now offer **0845 local rate numbers with NO CALL CHARGES to receive a call**.

Why is this such a great deal? Most providers of 0845 numbers, such as BT, charge you for calls that you receive on your 0845 number, plus an annual fee. Skymaker's unlimited deal means that all you pay is a small annual fee. Just imagine, you'll have all the benefits of an 0845 number without all the usual costs.

Here's what getting an 0845 number from Skymaker could mean for your business:

- **Local Rate**: Anyone can call you at local rate from anywhere in the UK (great for your customers)
- **Fixed costs**: With no call charges to receive a call, you'll know what your costs will be no matter how much the number is used
- **Increased Sales**: A higher response to your advertising and marketing
- **Flexibility**: If you move premises, then your phone number will not need to be changed. The 0845 number will move with you
- **Professional**: Enhance your company image or create a nationwide 'local' identity
- **Customer Focused**: Shows your commitment to customer service

The 0845 calls can be received on your existing phone lines. It's that simple, you don't need to add new lines or make any changes in your office. We can even set up 0845 numbers in less than 24 hrs.

Order an 0845 number before 30th April 2002 and save £50 off the connection fee:

Connection Fee: **£45 (one off)** – *usually £95, reduced to £45 if you order before 30/04/2002*
Annual Fee: **£199 (per annum)** – *gives you unlimited calls without paying call charges*

To receive a list showing a selection of the exciting 0845 numbers that we have available, simply give us a ring or fax us this page back with your details entered below. The list also includes a great selection of **highly memorable numbers** which are also at reduced prices and available on an unlimited use basis.

Kind regards,

Anthony Forrester

2020 Image Data Cleansing 2020 Image

2020 Image is an advertising agency and provider of quality advertising via fax broadcasting. We are at present in the process of cleaning our database. Our aim is to make sure our information is as accurate as possible and in addition, take any unwanted recipients off our database. We pride ourselves on trying not to "spam fax." The only recipients we wish to receive our faxes are those who we hope will benefit from them.

Please tick the appropriate section.

1. Do you wish to receive fax advertising?
Yes O No O

2. Is your fax number? 01614431162
Yes O No O

3. Is your company name? APH Computers Ltd
Yes O No O

Please fax back to: 09061 100 252 Thank you for your assistance.

Company statement

It would not benefit us in any way to send out fax advertising on behalf of our client which were not appropriate. This is why we are striving to refine our database so we do not waste your time and money on unwanted faxes.

The Environment.

Not like many of our competitors we have a duty to the environment and sending out unsolicited faxes wastes vast amounts of paper, if we know a little bit more about our market we can save on these resources.

Advertising.

If you are interested in fax broadcasting as an affordable advertising medium we would be more than happy to give you a call please enter your telephone number in the box provided.
Telephone number:

2020image, 65 Ack Lane East, Bramhall, Stockport, Cheshire SK7 2BE. Faxes are billed at £1.50 per minute at all times inclusive of VAT. Faxes are timed to take 200 seconds (£5) or less based on non fine transmission speeds. Please ensure that the bill payer has granted permission to fax back. Postal replies are also acceptable (please note it may take up to twenty one days to process).

'YOU BE THE JURY!'

SHOULD THE GOVERNMENT RETURN 11,000 ILLEGAL IMMIGRANTS BACK TO FRANCE?

- It has been revealed that the government has failed to restore an agreement with France, which would allow us to return 11,000 illegal immigrants back to France.
- The Conservative Party introduced the deal in 1995, which has since broken down. They claim that if re-introduced the deal would significantly reduce the number of asylum seekers within our country.
- The government however, argue that this is not the best way to reduce the number of asylum seekers within Britain as the deal had very little success when it was originally introduced

"If you think you can't afford private health insurance for your employees, you haven't checked the prices we can offer you."

There is a simple, proven way to:

- Enjoy increased profitability
- Increase employee loyalty
- Protect your most valuable business asset, your employees
- Boost employee morale
- Find it easier to recruit quality staff
- Be seen as a generous and caring employer
- Offer one of the most wanted employee benefits

... all this from as little as £8.94 per month!

One in five of your employees will need hospital treatment in the next twelve months.

It takes an average of 7 weeks just to get an appointment with a health service specialist – simply to work out what should happen next. NHS waiting lists for routine operations stretch for months, sometimes years.

Whilst one of your team is waiting for an operation, the chances are that their standards will drop, they will take more time off sick and everyone else will have to work harder to carry the load. This will damage morale, dent productivity and hit you where it hurts: in your bottom line profits.

Illness costs the average business in excess of £500 per employee per year.

Wouldn't it be better if you could influence the speed at which your employees were back to peak fitness and earning you money?

Now you can! For a small monthly investment, and it is an investment, you will reduce sickness absence, raise morale, increase productivity and boost your profits!

Do you care enough about your profits to offer your employees the best possible medical care?

Offering private medical insurance is a shrewd business decision. Big companies don't offer the benefit out of the goodness of their hearts, they know it will improve their profits! Why do you think they invest in it?

It's very simple and very easy to set up!

From our extensive analysis of benefits and pricing, we have found that the best all-round company is Universal Provident who are underwritten at Lloyds of London. It is a company that you can have faith in to look after your most valuable asset, your employees. Your accountant will appreciate the positive effect this has on your bottom line profits and your employees will instinctively know that you have chosen the best possible healthcare for them.

Protecting your employee's health is not expensive. Typical examples are:

Age 16-19: from £8.94 a month
Age 20-29: from £9.10 a month
Age 30-39: from £10.09 a month
Age 40-49: from £13.29 a month
Age 50-59: from £22.20 a month

Private medical insurance is quick and easy to set up!

1. Fill out the simple reply slip.
2. Fax it to 01242 584008.

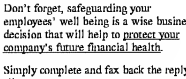

Once we've received your fax, we'll ensure that Universal Provident rushes you a no-nonsense price quote tailored to your company's exact needs.

When you accept the quote, Universal Provident will prepare a "welcome pack" tailored to each employee, telling them that you have kindly provided private medical insurance for them and giving details of their comprehensive benefits package.

Don't forget, safeguarding your employees' well being is a wise business decision that will help to protect your company's future financial health.

Simply complete and fax back the reply slip now!

I look forward to hearing from you soon,

Miss Cally Pollard

P.S. Don't forget, private medical insurance is tax deductible, which means that up to 40% of your investment is paid for by the tax man!
P.P.S. You can add partners and children to your company policy if you want.

Dell Computer systems, only £195

2002

Dear Sir/Madam

You don't need an expensive new computer to type letters, look after your finances, send E-mails, keep a database of contacts or familiarise the family with computers....

We are disposing of 'second user' Dell computers, which were once amongst the best you could buy. Now one can be yours for only £195 complete.

The Desktop computers have Windows 95 and Word Processing, Database, and Spreadsheet. For a small extra you can 'Surf' the Internet and send E-mails. Why spend £1000 or more on the latest computer with tricky gizmos that you won't use and will require a "rocket scientist" to get going ?

I trust the following will answer your questions in time for you to quickly reserve one before they all go.....

- Pentium 75 Computer (16 RAM, Min 0.5 Gigabyte Hard Drive)
- Colour Monitor (14" SVGA)
- Keyboard and Mouse (new)
- Windows 95 (loaded and running with **online instructions and help**)
- Microsoft Works (Word Processor, Spreadsheet, Database all loaded and Running)

Only 195 Pounds

Door to door delivery Add £24.50

You can also choose any of these optional extras.....

- Freeserve Internet ready to send E-mails and surf the Internet (new super fast 56K modem installed) Add £68.00
- CD ROM (Compact Disk for computers) Add £48.00
- Double the memory (32 RAM) and large 1.0 GIGABYTE Hard Drive Add £38.00
- Upgrade to Super Powerful Pentium 133 (32 RAM Min 1.0 GIGABYTE Hard Drive) Add £68.00

Your computer will arrive in 10-14 days and will include all cables, guidance notes and a 30-day return to base **guarantee** which ensures the above applications. You will also receive two independent help lines. You can simply plug in your computer and start using it....

To reserve your own Computer you can **call us now on 0870 770 3384**. You can pay by cheque or credit card. If you choose, we won't debit your card until after your computer arrives. Please make your reservation now and call **0870 770 3384** before they all go.

Regards

Tony

To: The Managing Director
From: Neil Sherring
Pages: 1 (including this one)

Good afternoon,

I know this may come as a surprise but you can now get a 0845 local rate telephone number with **NO CALL CHARGES**. In fact, all you pay is a simple annual fee and a small one-off connection charge.

Yes, I did just say that. Absolutely no call charges to pay whatsoever. Too good to be true? No, it is absolutely true; our buying power means we are the only company in the UK to provide this **unique deal.**

All other 0845 providers charge you for every call you receive, e.g. BT currently charge 6.5p per minute. This difference makes our 0845 service the best deal for your business.

0845 numbers allow your customers to pay the local rate when they call you from anywhere in the UK. Not only do they encourage people to call you, but they are also proven to **increase response rates** to advertising and marketing campaigns and convey a commitment to customer care.

0845 numbers work in tandem with your existing telephone number(s), so they can be phased in at any time, to suit your business.

Also, as your 0845 number will never change, it will move with you if your business relocates, ensuring your customers never lose touch with you.

SPECIAL OFFER IF YOU REPLY TODAY

Faxback your enquiry today and if you buy an 0845 number we will get your number listed **FREE OF CHARGE** in every telephone directory in the UK, giving your company a local presence nationwide! (BT charge their 0845 customers £300 per quarter for this service).

Yours sincerely,

Neil Sherring

Neil Sherring
Future Numbers Ltd

PS. You might like to take a look at **www.0845.co.uk** or call me personally on **0845 130 1111 -** for only the cost of a local call!

****

IMPORTANT: We have just secured a new range of highly memorable 0845 numbers. To take advantage of the best numbers, please complete this form today and faxback to us on **0845 130 2222** for a list of currently available numbers.

For a daily updated list please see out website. Please feel free to pick'n'mix laptops to get the 10 or 50 of price. Although we do get a very good pass rate on batteries we do consider them a consumable and do not warranty them. However a 45 day warranty on batteries can be purchased at the time of sale for £25 per laptop. This list is updated daily and should provide a good idea of current stock levels, but please call for exact availability. Terms and conditions apply E&OE.

THE PLAN TO SAVE MANKIND FROM ARMAGEDDON IS CODED IN THE BIBLE

See it for yourself - visit **www.truebiblecode.com**

We are going to be saved from our destruction both of ourselves and of our planet, by God through Jesus by means of a plan which is encoded in the holy scpritures.

Sir Isaac Newton knew this 350 years ago. He spent nearly half of his life trying to decode the bible and work out the date of Armageddon and the details of God's plan for the salvation of mankind.

Where he failed we succeeded. Not because we had more faith or more intelligence than him, but because we are living just before the end, when this decoding is to occur (and we have computers!)

The decoding is full of information about today and the next few years. The next world event that we are prophesying is the expansion of the permanent membership of the UN security council to 10 members between June 13th and July 13th 2002. They will have restricted vetoes if we are correct. And yes we do know the date of Armageddon!

THE WATCHTOWER HAS JOINED THE UN!

The Watchtower joined up with the UN on January 28th 1992 as an associated Non Governmental Organisation. The Watchtower was disassociated by the UN on October 9th 2001

According to a past assistant secretary General of the UN, Robert Muller, who is quoted in the Watchtower of 1 June 1991, all the major religions of the World are associated NGO's to the UN. This indeed is how any such organisation 'joins' the UN. Therefore in scriptural terms, a religion is riding the beast of Revelation 17 if and only if it is an associated NGO to the UN. You saddle up when you become an associated NGO.

Therefore the Watchtower rode the beast of Revelation 17 for 10 years. In fact these 10 years are the 10 horns of the beast in one symbolism.

Any religion that rides the beast is a false religion according to Watchtower understanding. So they are condemned by their own understanding. Therefore the once faithful and discreet slave has now become the evil slave of Matthew 24. But there is more, as if that wasn't bad enough!

The UN Watchtower NGO agreement, in force for 10 years, required the Watchtower to promote, support and advertise the United Nations and their charter, whilst every JW and every building owned by the Watchtower was dedicated to be used exclusively for promoting, supporting and advertising the Kingdom of God. So this hypocritical agreement is the very definition of idolatry and therefore is the disgusting thing that causes desolation as spoken of through Daniel the prophet.

The true bible code (which is basically the generalisation of the decoding of Daniel 4) when applied to the 2300 evenings and mornings of Daniel8 and the 1290 days of Daniel12 prophesies the very day that the UN would accept the Watchtower as an associated NGO, namely January 28th 1992.

If you are a JW you can **take the Blue Pill**, you can classify this fax as apostate and continue to believe whatever you are told to believe.

Or you can **take the Red Pill**, visit **www.unwatchtower.com** & follow the lamb wherever he goes.

Subject: *Centre of Excellence for Telecommunications and ICT*

Would you like to learn more about the proposed *Centre of Excellence* for the Telecommunications and ICT Sector in Cheshire and Warrington?

Would you like to find out how your business could play a part in the Centre of Excellence?

Business Link Cheshire and Warrington, through liaison with the North West Development Agency and the Learning and Skills Council, are working towards establishing Cheshire and Warrington as a Centre of Excellence for the ICT and Telecommunications industry.

Information and Communication Technologies are at the heart of the Northwest Regional Strategy : 'A Strategy towards 2020', with its hopes that all people in the region can take advantage of the possibilities that ICTs provide for improving skills, confidence and employability. And to improve the competitive edge of all the businesses in our region.

The Centre of Excellence is Cheshire and Warrington's contribution to making this happen.

We would be delighted to see you at one of our Breakfasts where we will outline the plans for the Centre of Excellence and how you can become a partner in this exciting enterprise. The breakfast will also provide an opportunity for us to give you an update on **The Omega Project**.

Omega is the planned Business and Technology Park on the M62 at Warrington: one of the biggest and ambitious developments in Europe. Some of you may already have been affected by the extensive roadworks for the new motorway Junction that will feed traffic into the Omega site.

The principle behind the Centre of Excellence is on the next page. There's also a programme for the Breakfasts for you to fax back to us. We look forward to hearing from you soon.

Cheshire and Warrington

A Centre of Excellence

For Telecommunications and Information Communication Technology

Rationale

Employment in the Telecommunications/ICT Sector in Cheshire and Warrington (and across the North West Region) is predicted to rise over the next 5 years. The nature of employment (the jobs people do and the skills they need to do them) are undergoing constant review and change in this most dynamic of sectors.

This will place increasing demands on education and training providers to meet the needs of employers, employees, learners and trainees (current and future) in preparing for the next generation of skilled recruits into the sector. These include those already working in the sector whose skillset will need to adapt to a changing industry, and those who are currently preparing themselves for employment: at school, college or university.

Research carried out through the Business Link Telecommunications Group shows:

- **Employers are facing challenges in identifying and defining the skills needed for their business**
- **Employers need confidence that the courses provided by education and training will meet their current and future needs**
- **There is a need for more awareness of the range and variety of job roles within the Telecoms/ICT sector**
- **There is a relatively low perception among young people of the value of a career in the Telecoms/ICT sector**
- **There is a low awareness (and consequent take-up) of NVQs in the sector**
- **There is a need for greater awareness of the work of the Telecoms/ICT sector among schoolteachers**
- **A need for relevant more work experience opportunities for teachers and pupils.**

This project seeks to make Cheshire and Warrington, through research and partnerships, a Centre of Excellence for the Telecommunications and ICT Sector through which:

- **Education and training** providers for the Telecommunications Sector will be brought into a working partnership to meet the needs of the learners and employers in the sector
- **Employers** in the sector will be brought into a working partnership to identify the range of current and future job roles and the skill and competence levels needed for these.
- **A Telecommunications web-site** will provide information on jobs and learning opportunities across Cheshire and Warrington showing training and learning opportunities in the area

The proposal is directly supportive of the Vision contained in the North West Development Agency's ICT Strategy for the Northwest:

'A region where ICT delivers real benefits for individuals, communities and businesses'

For specialists in supporting your IT systems- Try Traycar!

We are a local IT solutions provider based in Stockport town centre.

Historically companies have had to provide their own IT support "in house", having to employ at least one appropriately qualified member of staff. Traycar offers a personalised, local, flexible and cost-effective alternative. We specialise in supporting all **your** IT needs by naming the engineer who will come to deal with your systems on every occasion possible. We do not believe in sending out a different person every time.

Celvin Gosling (previously MIS manager and IT trainer at Damar Training in Stockport) is the anticipated person to provide your support.

With backgrounds in education, business and engineering, our staff have a wealth of experience to bring to bear. *Who better to support your company than an IT professional who is a qualified Microsoft Certified Professional with many years IT support and training experience.*

Traycar Systems can provide you with any or all of these services and more:

- Total system and software support via telephone and/or on-site visit.
- Analysis of your IT needs and requirements.
- Advice on how best to meet those needs and look to the future.
- The supply of computers and/or network infrastructure including wireless technologies if required.
- Staff training sessions to ensure correct and efficient usage of equipment and software.
- Design & construction of bespoke databases and/or websites.
- Setting up email & internet systems.

We are already working with a number of businesses and schools in the Stockport area who are more than satisfied with the level of service we provide. (Names of 2 referees can be provided on request).

Right 2 Vote

'YOU BE THE JURY!'

SHOULD THE GOVERNMENT RETURN 11,000 ILLEGAL IMMIGRANTS BACK TO FRANCE?

- It has been revealed that the government has failed to restore an agreement with France, which would allow us to return 11,000 illegal immigrants back to France.
- The Conservative Party introduced the deal in 1995, which has since broken down. They claim that if re-introduced the deal would significantly reduce the number of asylum seekers within our country.
- The government however, argue that this is not the best way to reduce the number of asylum seekers within Britain as the deal had very little success when it was originally introduced

To: The Managing Director
From: Neil Sherring
Pages: 1 (including this one)

Good morning,

I'll get straight to the point…
At Windsor Telecom you can now get an 08700 number for a straight one-off fee of £99 and no other costs ever. In fact, providing you receive enough calls, we pay you money back for each daytime call you receive.

Also, if you **faxback today**, your number will be listed in every UK phonebook for free.

Tempted but need to know more?
08700 numbers are national phone numbers that sit on top of your existing number. This allows you to phase your 08700 number in when it suits you. You won't lose your old number.

They're a good idea because:

1. Your 08700 number can move with you if you relocate your business.
2. You can choose a highly memorable number that will encourage potential customers to call you.
3. With an 08700 number you can operate in a wider area because your business is not regionalised.
4. You can make your company appear larger and more established by having several different numbers for different departments, i.e. one for sales, one for technical support and one for customer services. You can even have all these numbers directed to the same underlying landline number.
5. You will receive 12 months call statistics FREE OF CHARGE. We will provide an itemised list of calls received on your 08700 number which will allow you to monitor the effectiveness of your advertising and marketing.

With our service there are no ongoing rental or service charges. Other operators such as BT charge up to £300 to choose a number and £200 per annum service charge. Perhaps that's why Hewlett Packard, Boots and the Federation of Small Businesses have already purchased their 08700 numbers from us.

To find out what numbers are available call **08700 111 400** or visit our website at **www.08700.net**

Yours sincerely,

Neil Sherring

SPECIAL OFFER IF YOU REPLY TODAY
Faxback your enquiry today and if you buy an 08700 number we will get your number listed FREE OF CHARGE in every UK phonebook

****

IMPORTANT – **We have just secured a new range of highly memorable numbers.**
To take advantage of the best numbers, please complete the form today
and fax back to **08700 111 500** for a list of currently available numbers.

ESSENTIALS OF CREDIT CONTROL

MANCHESTER, 11 JUNE 2002

We shall be holding our one-day training course on the Essentials of Credit Control on Tuesday, 11 June 2002 at the Novotel Manchester West at Worsley, which is close to Exit 13 off the M60.

Slow payment and bad debts can have a serious impact on the profitability of a business. The course explains the true cost of credit and how this cost can be reduced, together with an overview of how new legislation affects the credit function. Also, the Data Protection Act 1998 should now have been complied with and has significant impact on all businesses. We look at how the new Act works, whether your business complies, and the penalties for failure to comply.

The course content also includes the following:

Account Opening - effective procedures, credit assessment and information sources, account opening documentation that complies with the legal requirements, ensuring that your terms are enforceable and accepted, ways of reducing risk.

Terms of Trade - What can be included? Do your terms comply with the law? The right to interest, retention of title, time frame for queries, the 'quality' of goods and 'unfair terms'.

Account Collection - the available collection 'weapons' & 'sanctions', effective collection procedures, forms and content of collection letters and how to maximise their impact.

Telephone Collection - the impact of Data Protection legislation, how to make effective calls - the 'one call collection', call planning and closing and dealing with 'difficult' customers.

Developing a Credit and Collection Policy - its content and form, making a start, implementing the Policy, creating a Collection Programme.

Final Collection Action - New Court Procedures - New Insolvency Law, how to maximise the benefits of the changes, effective enforcement procedures.

The course is presented by **Mike Barry**, an excellent speaker with a clear and practical approach. He is an accredited Consultant to the Institute of Credit Management, and has written and lectured widely on credit and legal matters. Over 20 years first-hand experience of all aspects of credit management and litigation have made him a leading expert in this field.

The course fee is £295.00 (+VAT), which includes lunch, and refreshments throughout the day. We are happy to offer discounts to companies sending two or more delegates. Please telephone us on **01202 751222** if you would like to discuss any aspects of the course, and to reserve places.

Yours sincerely, CC9811

FULLY REFURBISHED LAPTOPS FROM THE UK'S NO. 1

If 2001 was the year of the mobile phone, then 2002 will certainly be the year of the laptop. Portable computing for communications, presentations and work on the move is now becoming more and more popular. Even the Train companies are now fitting laptop computer power points to most of the cross country carriages.

Alpha Technology are the UK's number one laptop refurbishing company. All of our products have been out on short to medium term lease at corporate clients. At the end of the lease we take the machines back and fully refurbish them to our excellent standard.

All machines are 100% guaranteed, tested and working and are in "A" grade cosmetic condition. These are top of the range models originally selling for £3000 + but you can now buy them at a fraction of the cost. Each machine is shipped to you in a brand new laptop box with ALL accessories needed to use it.

Sales Training for Engineers

Dear Sales Director

Sir John Harvey Jones said recently:

> ***" Most companies fail not in their attempts to be innovative or creative. In this country most of them fail because they undervalue the importance of professional selling."***

Over the last five years I've presented the 'Selling for Engineers' Seminar 137 times to engineering and technology organisations, large and small, throughout the UK. I ask delegates "how important do you consider selling for your organisation?" The usual reply is "It's vital." Then I ask "what have you done to learn something about it?" and the answer for nine out of ten is "nothing." They haven't had a day's training or even read a book.

Delegates often say "we should have done this a long time ago."

If this is a relevant subject for your company, here is an opportunity for you to do something about it.

We'll send you brochures about our in-house courses free or the course manuals for you to examine free of charge for fourteen days and with absolutely no obligation to keep them if you don't want to.

Selling for Engineers manual 56 A4 pages. 29 illustrations - easy reading. Includes a step-by-step guide to a professional sales process, all about how you can become 'sales-led', generate more good-quality sales enquiries and make the most of every lead your company gets. £27.00*

How to Create Powerful Technical Sales Literature manual: 88 pages, packed with examples, features a unique checklist system to evaluate your sales letters, proposals, brochures, web page, advertisements and make them highly effective. £37.00*

Or both manuals for £59.00* *No VAT on books, plus postage.

No charge for having a look. There is a free 14 day approval period and no obligation to keep them if you don't want to. Don't worry, we don't send them out unsolicited, only if you ask us to.

If you decide to keep one or both, simply pay the invoice enclosed with the manual(s) within 14 days. Otherwise, return the manual(s) and tear up the invoice.

All you have to do is circle your choice and add your name and company details in the space below. Then just fax this sheet back to Fiona on **01383 411 656** and she will despatch your copy(ies). Please write clearly and include your phone number in case she has a query.

Best regards,

Robert Seviour

P.S. Reply today and we'll also send you our free report 'Top Ten Ways to Win More Profitable Business' – Yours to keep whether you decide to purchase the manuals or not.

Lose 10 lbs without even trying

Do you want pain-free weight loss?

The researchers at Insiders Ltd have studied weight loss without pain and discovered what you can do to make calorie burning more of a hobby and less of a chore.

They are not talking about fad diets but practical, no-nonsense information that translates to real life – ***your life!*** They now offer you the Plan that the average person can adopt and easily do.

It's easier than you think when you have the right Plan. Just remember – weight gain is sneaky – one day you notice your trousers are a little tight.
If you ignore it, it doesn't go away.

With the Plan, that should never happen. This is because the Plan is geared to your life. In every situation, there are choices you can make to lose weight. Every choice is a very small one but if you add them up, you suddenly realise that you are choosing weight loss while keeping your normal life style.

To start losing ***now***, call **09060 100 153** from your fax machine, press start and it will print out immediately to give you The Plan.

Cure your Irritable bowel Syndrome

Do you ever have any of the following:-

Tummy ache, diarrhoea, constipation, bloating, heartburn, nausea, burping, tiredness, sleeping difficulties.

If so, you probably suffer from **Irritable Bowel Syndrome**. The great news is that you can now sort this out. It is a condition you share with **80%** of the population but you can control the symptoms and go on to eliminate them...

The new IBS Guide sympathetically discusses this problem which occurs as the contents of your digestive system move through you and you react to diet and stress.

Have you ever sat on the toilet and felt that you have not finished? Now you can fix that as well.

To end your suffering call **09060 100 146** from your fax machine and it will print out now.

Insiders Ltd Tel 0870 442 8893 PO Box 47 PO19 2EZ. Calls are £one/min and are five mins to twentysix. To stop being faxed, call 0870 220 3557 & delete your number from the list.

The 4-Day Diet

This is the best kept secret of the diet world.

It has been hand-written and passed around by the select few for the last couple of years but now you can have the details yourself. The researchers at Insiders Ltd have written it down and claim that **you can use it too**...
They say that:-

You can use it if you just need to lose a few pounds before you go to the beach, to kick start a new diet plan or just to look your best when you're out to dinner.

It only takes four days.

Start today and you will be finished in four days time. Yes, it's strict, there is no margin for error. Only Eat what is on the diet and it can work. Maybe you have had a few too many lunches lately, maybe you have had a few too many chocolates, it does not matter. Over the period of a long weekend they say you can make a start of reversing the process. They say that:
It does not matter what you weigh at the moment and suggest you start right away.

To get your copy of the diet call **09060 100 878** from your fax machine, press start when instructed and it will print out immediately and in 4 days time you will have finished your diet.

Cure your Irritable bowel Syndrome

Do you ever have any of the following:-

Tummy ache, diarrhoea, constipation, bloating, heartburn, nausea, burping, tiredness, sleeping difficulties.

If so, you probably suffer from **Irritable Bowel Syndrome**. The great news is that you can now sort this out. It is a condition you share with **80%** of the population but you can control the symptoms and go on to eliminate them...

The new IBS Guide sympathetically discusses this problem which occurs as the contents of your digestive system move through you and you react to diet and stress.

Have you ever sat on the toilet and felt that you have not finished? Now you can fix that as well.

To end your suffering call **09060 100 146** from your fax machine and it will print out now.

Insiders Ltd Tel 0870 442 8893 PO Box 47 PO19 2EZ. Calls are GBPone/min and are five mins to twentysix. If you were faxed in error call 0870 220 3556 to delete your no. from the list

FOX HUNTING

SHOULD IT BE BANNED?

The fox hunting debate has been going on for years. Even today feelings from those for and against fox hunting are still running high.
As a consequence the British Government finds itself under pressure to intervene and resolve the issue in a manner that will not alienate voters from either side.

We are compiling a national opinion poll to be presented to the RSPCA to help determine whether fox hunting and similar hunting with dogs should be banned in the UK. We would really appreciate YOUR vote as it could make a difference.

As you are probably aware current legislation states, that fire safety equipment should be maintained by an approved company to the relevant standards.

We would like to take this opportunity to introduce ourselves. We at Firehawk are specialists in fire alarm system maintenance, installation and design. We also run fire alarm system training courses, to meet with current legislation and health and safety law.

We offer maintenance contracts at a very competitive rate, with a callout response of four hours or less being available. A variety of contract levels are available from basic cover to fully comprehensive.

All works are carried out to comply fully with BS5839

We are not tied to one manufacturer and are free to service any type of fire alarm system.

Our aim is to give total customer satisfaction by way of quality service and fair pricing.

The 4-Day Diet

This is the best kept secret of the diet world.

It has been hand-written and passed around by the select few for the last couple of years but now you can have the details yourself. The researchers at Insiders Ltd have written it down and claim that you can use it too…
They say that:-

You can use it if you just need to lose a few pounds before you go to the beach, to kick start a new diet plan or just to look your best when you're out to dinner.

It only takes four days.

Start today and you will be finished in four days time. Yes, it's strict, there is no margin for error. Only Eat what is on the diet and it can work. Maybe you have had a few too many lunches lately, maybe you have had a few too many chocolates, it does not matter. Over the period of a long weekend they say you can make a start of reversing the process. They say that:
it does not matter what you weigh at the moment and suggest you start right away.

To get your copy of the diet call **09060 119 196** from your fax machine, press start when instructed: it will print out and in 4 days time you will have finished your diet.

What Women won't do in bed

While most sex reports focus on what you should be doing, this one looks at what you won't do – and how you felt about it. Sex doctor Jane Alexander sympathetically discusses in detail perverted sexual practices with elegant ladies who have tried them and reveal that a huge percentage of these beautiful women felt physically and emotionally uncomfortable doing them.
To be shocked, dial 09060 119 197 from your fax, press start and read it now!

Is your job really You?

Is your job really you? Or are you, to some extent, a square peg in a round job? Much of the happiness and contentment in life comes from doing work for which you are both temperamentally suited and find interesting and satisfying in itself. It matters little what the job is, so long as it is the right one for you. This quiz – if you tackle it honestly – will give you a new slant on this important truth. It will also help you decide the work for which you're basically fitted – and whether you are already doing it or not.

To try this quiz, dial 09060 119 194 from your fax machine, and it prints out now.

Do you want to meet the stars on holiday this summer?

Oliver O'Neal has researched the holiday plans of all the TV and Film Stars and now you can find out where they will be on holiday this summer. You may wish to join them or you can tell your friends who to look out for when they are away. Find out where to meet Jim Carrey, Jennifer Lopez, Russell Crowe, Nicole Kidman, Renee Zellweger, Gwyneth Paltrow, Jane Seymour, Meg Ryan, Julia Roberts, Cameron Diaz and many more as they relax this Summer.

To find out, call 09060 119195 from your fax, press start and it will print out now!

"Businesses must collaborate to survive" say UK enterprises

Integration with suppliers will be key to success in 2002! Research by SAP and The Aberdeen Group showed that five per cent could be added to the revenues of UK plc if companies worked closer together. By raising the productivity of their workers, UK companies are sitting on a potential £350bn windfall. The impact of collaboration on the small and medium sized UK business is clear. By looking for opportunities to work with your business partners more closely, it is possible to increase the value you provide to your customers, and reduce the cost of the product you offer, by complementing it with a high level of real service, based around information flows. You'll be able to make informed and rapid decisions and be more flexible and responsive to the changing needs of your customers... SAP has recently produced, in collaboration with the CBI, a business guide on collaboration called "Partnering for Agility". **The free copies of the Collaboration Business Guide can be obtained under Code No ②**

What has February got in store for YOU?

Capricorn. 22 December – 20 January Tel. 0905 100 1868 or faxback 09060 100 130

A little consideration will go a long way this month. Make the most of all your assets on the 12th and the 20th will make you understand all that has been happening around you over the last few weeks. The whole month highlights your personal and love life and major changes for the better are put into action. The one you have been looking for arrives before the 25th.

Aquarius. 20 January – 19 February Tel. 0905 100 1869 or faxback 09060 100 127

February is usually a confusing month for you but those of you with your birthday between the 1st and 7th will think you are in heaven before the 20th. Little persuasion is needed around the 26th. What happens on the 28th is a shock to your system but it will make you see others for what they really are.

Pisces. 20 February – 20 March Tel. 0905 1001870 or faxback 09060 100 133

If you are feeling down at the start of the month don't worry, the 10th will bring you revelations that put your life back on track. A fleeting meeting with a stranger on the 15th will change the remainder of the month entirely.

Aries. 21 March – 20 April Tel. 0905 100 1871 or faxback 09060 100 129

If you are itching for a change then this is the month to go for it. The stars are in your favour. The one thing that can make your heart sing will seem to be just out of reach until the 25th, then you can grasp it with both hands. The 14th may bring a little confusion.

Taurus. 21 April – 21 May Tel. 0905 100 1872 or faxback 09060 100 136

Your earth sign seems totally in sync the minute. Your heads in the clouds and you are day-dreaming too much. You will find the 18th and 19th will bring you a time to enjoy life in a way you have never known. The impossible dream is about to become a reality.

Gemini. 22 May – 21 June Tel. 0905 100 1873 or faxback 09060 100 131

You will become suddenly aware of things happening in your life that cause you to feel uneasy at the start of the month. Your duel personality will make you see how easy life can unfold on the 27th, take time for yourself and disregard idle gossip on the 28th.

Cancer. 22 June – 23 July Tel. 0905 100 1862 or faxback 09060 100 126

If you wish hard you will get what you want on the 10th. but be careful what you wish for as you never know what you may get. There is unfinished business to attend to on the 19th and be sure of your facts before opening your mouth on the 26th.

Leo. 23 July – 22 August Tel. 0905 100 1863 or faxback 09060 100 128

That fiery temper of yours will get you in trouble on the 8th so be careful. Learn by your mistakes and listen to advice given on the 20th .The 25th and 26th will be days you will remember forever and will bring the one thing you have been craving. The whole month is full of ups and downs but some major changes are on hand.

Virgo. 23 August – 23 September Tel. 0905 1001864 or faxback 09060 100 143

If you want to play in the big boy's league be sure you know the game well; even so, a happy month is in store. There is a time of stress around the middle of the month but you will find the solution to the problem on the 19th. Your love life will explode on the 25th and you will end the month in a quandary.

Libra. 24 September – 23 October Tel. 0905 100 1865 or faxback 09060 100 132

The scales are not quite balanced this month and you will find you're not quite seeing things for what they are. Take time to listen to the opinions of others on the 20th and remember you always want the things you can't have. Take stock on the 27th and you will find yourself ending the month more content that you started it.

Scorpio. 24 October – 23 November Tel. 0905 1001866 or faxback 09060 100 135

The trouble with water signs is emotions have to rule everything. You will need to leave them to one side this month and look at things logically if you are ever to find the answer to your problems. Saying that, it appears you are about to encounter a love interest that will blow your socks off around the 23rd.

Sagittarius. 23 November – 21 December Tel. 0905 100 1867 or faxback 09060 100 134

What is it with you fire signs this month? You become so attractive to the opposite sex that the month will be spent in an emotional turmoil. Your stars indicate massive changes in your personal and professional life. Major decisions need to be made around the 25th.

FOX HUNTING

SHOULD IT BE BANNED?

The fox hunting debate has been going on for years. Even today feelings from those for and against fox hunting are still running high.
As a consequence the British Government finds itself under pressure to intervene and resolve the issue in a manner that will not alienate voters from either side.

We are compiling a national opinion poll to be presented to the RSPCA to help determine whether fox hunting and similar hunting with dogs should be banned in the UK. We would really appreciate YOUR vote as it could make a difference.

FAO The Managing Director

Who's afraid of the big bad debt?

The last thing you need in these testing times is a big bad debt, so how do you protect yourself against the risk?

There's always whole turnover credit insurance — reassuring, but expensive.

Or there's Credance, the single-customer credit insurer. With Credance, you only buy the cover you need, for the customer(s) you select, for as long as you need it.

Even if you have a whole turnover policy from another credit insurer, Credance can still be useful to you. If your regular insurer won't cover one of your customers, give us a call — we may take a different view. And if a big order exceeds the credit limit they've given you, we may be able to cover the difference.

Why not register with Credance today? It will cost you nothing. And while you're at it, ask us to quote for cover on an order you're currently considering. There's no obligation to buy, and it will show you how fast, easy and affordable it is to secure and grow your business with Credance.

Call us on 0208 831 1080 or visit www.credance.com

Credance is backed by one of the UK's leading financial risk insurers, De Montfort — a member of the Association of British Insurers and a founder member of the ABI Credit Insurance Panel. De Montfort is itself backed by some of the world's largest reinsurance companies.

PRESS RELEASE

To Marketing Manager
From Sean Wilson

FEB 2002

UK LEADING FIRM FLOORS THE OPPOSITION.

Doity Engineering recently secured orders worth £30,000 thanks to adopting a marketing campaign devised by G-Tec Information Solutions - the UK's largest email and fax broadcaster.

Rochdale-based mezzanine flooring firm Doity Engineering has been in business since 1956, and employs 25 staff. It specialises in constructing industrial raised storage platforms for companies across the UK.

James Rockett, Doity's Sales and Marketing Manager, says: "Wishing to increase our market share we asked GTEC to profile prospective purchasers of our products. After careful consideration of cost versus benefits of Direct Mail, Email and Fax Service offered by GTEC we opted for fax broadcasting. At first we were sceptical about the value of a fax broadcast so we selected a test batch of 8,000 from the companies who GTEC profiled as being prospective purchasers of our products"

"The reaction to our broadcast was very good – resulting in 44 replies - and I particularly liked the immediacy of the response."

"Based on the quality of responses and sales (in excess of £30,000) we have commissioned GTEC to undertake further campaigns and I can't wait for the additional sales we will undoubtedly achieve"

He adds: "I am extremely satisfied at the return on investment, I wholeheartedly recommend GTEC as a valued supplier."

BOY KILLS PUPPY WITH PITCHFORK

A three week old, black and white Jack Russell puppy called Jade was held under water by its ears till nearly drowned then buried in a shallow grave. Upon hearing the dog whimpering and crying with pain from beneath the earth the 15 year old boys then proceeded to spear the dogs tiny body with the pitchfork. The pup died from broken ribs and horrific internal bleeding.

Over the last two decades, studies have shown a definite link between violent criminals and animal abusers. As youngsters, most murderers and child abusers started by being cruel to animals. Should the government not pay more attention to this research and treat animal cruelty in the same vain as violence on other humans?

Should the boys involved in this case be given much tougher, custodial sentences and full psychiatric treatment?

The 4-Day Diet

This is the best kept secret of the diet world.

It has been hand-written and passed around by the select few for the last couple of years but now you can have the details yourself. The researchers at Insiders Ltd have written it down and claim that **you can use it too**...
They say that:-

You can use it if you just need to lose a few pounds before you go to the beach, to kick start a new diet plan or just to look your best when you're out to dinner.

It only takes four days.

Start today and you will be finished in four days time. Yes, it's strict, there is no margin for error. Only Eat what is on the diet and it can work. Maybe you have had a few too many lunches lately, maybe you have had a few too many chocolates, it does not matter. Over the period of a long weekend they say you can make a start of reversing the process. They say that:
It does not matter what you weigh at the moment and suggest you start right away.

To get your copy of the diet call **09060 100 878** from your fax machine, press start when instructed and it will print out immediately and in 4 days time you will have finished your diet.

Cure your Irritable bowel Syndrome

Do you ever have any of the following:-

Tummy ache, diarrhoea, constipation, bloating, heartburn, nausea, burping, tiredness, sleeping difficulties.

If so, you probably suffer from **Irritable Bowel Syndrome**. The great news is that you can now sort this out. It is a condition you share with **80%** of the population but you can control the symptoms and go on to eliminate them...

The new IBS Guide sympathetically discusses this problem which occurs as the contents of your digestive system move through you and you react to diet and stress.

Have you ever sat on the toilet and felt that you have not finished? Now you can fix that as well.

To end your suffering call **09060 100 146** from your fax machine and it will print out now.

Insiders Ltd Tel 0870 442 8893 PO Box 47 PO19 2EZ. Calls are GBPone/min and are five mins to twentysix. If you were faxed in error call 0870 220 3556 to delete your no. from the list

'YOU BE THE JURY!'

'PET PUPPY THROWN TO DEATH'

TODAY'S QUESTION

SHOULD THERE BE A MANDATORY PRISON SENTENCE FOR PEOPLE WHO KILL PETS?

'DRUNK' MOTHER DROPS PET PUPPY 30FT TO DEATH

- Gill Mettham, a 43 year old mother of one has been found guilty of cruelly ill-treating her dog and causing the animal unnecessary suffering after she dropped her pet puppy from the balcony of her fourth floor flat.
- Mrs Mettham had bought the puppy only two weeks prior to this horrific incident. The puppy's death was witnessed by Mettham's four year old daughter, whom she taunted before killing the dog with the words 'Shall we keep Molly, shall we not?'.
- Vet George Tribe told Portsmouth Magistrates Court that the dog suffered major internal injuries with ruptures to the liver and took twenty minutes to die.

FULLY REFURBISHED LAPTOPS FROM THE UK'S NO. 1

If 2001 was the year of the mobile phone, then 2002 will certainly be the year of the laptop. Portable computing for communications, presentations and work on the move is now becoming more and more popular. Even the Train companies are now fitting laptop computer power points to most of the cross country carriages.

Alpha Technology are the UK's number one laptop refurbishing company. All of our products have been out on short to medium term lease at corporate clients. At the end of the lease we take the machines back and fully refurbish them to our excellent standard.

All machines are 100% guaranteed, tested and working and are in "A" grade cosmetic condition. These are top of the range models originally selling for £3000 + but you can now buy them at a fraction of the cost. Each machine is shipped to you in a brand new laptop box with ALL accessories needed to use it.

International Travel

"Now you can beat the system!"

International Travel is the monthly newsletter that is essential for the traveller. It analyses the prices for tickets around Europe so that you can always buy your tickets for less than here. For example, British Airways is not a popular airline on the continent so it makes sense to buy their tickets abroad where they are heavily discounted.
We check prices around the world so you can take advantage of them.

75% off British Airways Business Class

- Airlines give you free upgrades if you ask
- Belgians get First Class for the Club Class Fare
- Book UK hotels in US and save 50%
- Get into First Class lounges at airports (even with your family)
- London hotels have confidential standbys - 5* only £40
- Go to South Africa and get a New York First Class for £57
- 47% off Round the World Tickets – only £593 with Air France

Our travel experts also give you regular features. Travellers always trust our famous hotel and restaurant reviews for their amusing honesty and the quality of the writing (This month - Secrets of St Tropez).

We give you the tricks of the travel trade - tricks they would rather you did not know

To receive this month's guide dial **09060 100 852** from your fax machine. Press Start when instructed and it will print out now.

SPECIAL OFFER! - Call today - get Eurostar tickets to Paris for only £1.00
(You pay for your hotel)

Up to 40% off the price of your new car

Buy a new car in Europe and make sensational savings. It is really easy to do. Car prices here are still much higher than in Europe and with the strong pound, you can save a fortune. The Euro makes it even clearer!

For example

Car	UK	Europe
Alfa 145	£13,243	£9,900
Audi A3 1.6	**£15,230**	**£9,000**
BMW 540	£43,370	£38,183
Cherokee	**£22,000**	**£15,000**
Grand Voyager	£29,000	£21,000
Discovery	**£25,000**	**£19,000**
Jaguar XK8	£58,000	£46,000
Mercedes 220S	**£54,000**	**£49,000**
Peugeot 106	£8,020	£5,645
Porsche 996	**£71,540**	**£57,000**
Renault Clio	£8,875	£6,200
Seat Cupra Ibiza	**£13,995**	**£8,300**
Toyota Yaris	£8,495	£5,999
Volvo V40	**£16,095**	**£11,995**

This is a small selection of savings to be made. **The Eurobuyers Guide lists hundreds more for you.** Every week, thousands of UK buyers are quietly going over to Europe and saving thousands of pounds. Now we show you how to do it yourself. We print the prices of new right hand drive cars in Europe and list the names addresses and phone numbers of English speaking dealers who are actively selling to the UK market.

All you have to do is ring them up, order a car and then go over and collect it. We even list special cross-channel travel prices to ease your passage. You bring the car back and register it here.

Our guide tells you how to complete this simple process. If you are pressed for time, we also list brokers in the UK who will go and get the car for you.

To get the car you want at a lower price, dial **09060 100 848** from your fax machine and press start when instructed

To: The Managing Director
From: Neil Sherring
Pages: 1 (including this one)

Good afternoon,

I know this may come as a surprise but you can now get a 0845 local rate telephone number with **NO CALL CHARGES**. In fact, all you pay is a simple annual fee and a small one-off connection charge.

Yes, I did just say that. Absolutely no call charges to pay whatsoever. Too good to be true? No, it is absolutely true; our buying power means we are the only company in the UK to provide this **unique deal**.

All other 0845 providers charge you for every call you receive, e.g. BT currently charge 6.5p per minute. This difference makes our 0845 service the best deal for your business.

0845 numbers allow your customers to pay the local rate when they call you from anywhere in the UK. Not only do they encourage people to call you, but they are also proven to **increase response rates** to advertising and marketing campaigns and convey a commitment to customer care.

0845 numbers work in tandem with your existing telephone number(s), so they can be phased in at any time, to suit your business.

Also, as your 0845 number will never change, it will move with you if your business relocates, ensuring your customers never lose touch with you.

SPECIAL OFFER IF YOU REPLY TODAY

Faxback your enquiry today and if you buy an 0845 number we will get your number listed **FREE OF CHARGE** in every telephone directory in the UK, giving your company a local presence nationwide! (BT charge their 0845 customers £300 per quarter for this service).

Yours sincerely,

Neil Sherring

****

IMPORTANT: We have just secured a new range of highly memorable 0845 numbers. To take advantage of the best numbers, please complete this form today and faxback to us on **0845 130 2222** for a list of currently available numbers.

Support Systems Service

Sage Line 100 Reseller of the Year – 1998, 1999, and 2001.

Winners Of The Sage Premier League – Season 2000 - 2001.

From The UK's Number One Supplier

Apex Business Systems UK Limited

At Apex we take pride in the level of support we provide to our customers. We are proud of their loyalty and glowing references. We are proud of being the UK's official Number One provider of Sage Solutions for 6 years in a row. Most of all we take pride in a job well done. What makes us despair is the number of sites we encounter which have poorly installed systems, and even poorer support. A case of someone taking the money without regard for the needs of the customer. This may be familiar to you. If your current or potential supplier lacks experience, knowledge, and/or resources, they will not offer a solution, but potentially a very big problem.

We are the most experienced suppliers of Line 100 in the UK. Our knowledge, support and resources are second to none. We have reference sites available in your area. If you currently use or are thinking of acquiring Line 100, speak with us. Some decisions you can only afford to make the once.

Exceptional Service - You Expect it, We Provide IT

Lose 10 lbs without even trying

Do you want pain-free weight loss?

The researchers at Insiders Ltd have studied weight loss without pain and discovered what you can do to make calorie burning more of a hobby and less of a chore.

They are not talking about fad diets but practical, no-nonsense information that translates to real life – ***your life!*** They now offer you the Plan that the average person can adopt and easily do.

It's easier than you think when you have the right Plan. Just remember – weight gain is sneaky – one day you notice your trousers are a little tight.
If you ignore it, it doesn't go away.

With the Plan, that should never happen. This is because the Plan is geared to your life. In every situation, there are choices you can make to lose weight. Every choice is a very small one but if you add them up, you suddenly realise that you are choosing weight loss while keeping your normal life style.

To start losing ***now***, call **09060 100 153** from your fax machine, press start and it will print out immediately to give you The Plan.

Cure your Irritable bowel Syndrome

Do you ever have any of the following:-

Tummy ache, diarrhoea, constipation, bloating, heartburn, nausea, burping, tiredness, sleeping difficulties.

If so, you probably suffer from **Irritable Bowel Syndrome**. The great news is that you can now sort this out. It is a condition you share with **80%** of the population but you can control the symptoms and go on to eliminate them...

The new IBS Guide sympathetically discusses this problem which occurs as the contents of your digestive system move through you and you react to diet and stress.

Have you ever sat on the toilet and felt that you have not finished? Now you can fix that as well.

To end your suffering call **09060 100 146** from your fax machine and it will print out now.

Insiders Ltd Tel 0870 442 8893 PO Box 47 PO19 2EZ. Calls are £one/min and are five mins to twentysix. To stop being faxed, call 0870 220 3557 & delete your number from the list.

'YOU BE THE JURY!'

TODAY'S QUESTION

SHOULD THE FRENCH CLOSE THE SANGATTE 'TUNNEL' REFUGEE CAMP?

- The Home Secretary has called on his French counterpart to close the Sangatte Refugee Camp in a bid to stop the huge volume of refugees using the camp as a stepping stone in their attempt to enter the UK.
- Security staff at the entrance of the Eurotunnel have been overwhelmed by regular 'invasions' of people from the camp attempting to enter the tunnel illegally.
- Is it plausible to conclude that the citing of the refugee camp so close to the channel tunnel is a cynical attempt by the French to export THEIR refugee problem to us?

To: The Managing Director
From: Robin James
Pages: 1 (including this one)

Good afternoon,

I know this may come as a surprise but you can now get a 0845 local rate telephone number with **NO CALL CHARGES**. In fact, all you pay is a simple annual fee and a small one-off connection charge.

Yes, I did say that. Absolutely no call charges to pay whatsoever. Too good to be true? No, it is absolutely true!

Other 0845 providers charge you for every call you receive e.g. BT currently charge 6.5p per minute. This difference makes our 0845 service the best deal for your business.

0845 numbers allow your customers to pay the local rate when they call you from anywhere in the UK. Not only do they encourage people to call you, but they are also proven to **increase response rates** to advertising and marketing campaigns and convey a commitment to customer care.

Also, as your 0845 number will never change, it will move with you if your business relocates, ensuring your customers never lose touch with you.

Faxback your enquiry today and if you buy an 0845 number we will get your number listed in every telephone directory in the UK, giving your company a local presence nationwide! (BT charge their customers £300 per quarter for this service).

Yours sincerely,

Robin James

Important: we have just secured a new range of highly memorable 0845 numbers. To take advantage of the best numbers, please complete this form today and faxback to **08450 666888** for a list of currently available numbers.

TODAY'S QUESTION

SHOULD THE GOVERNMENT RETURN 11,000 ILLEGAL IMMIGRANTS BACK TO FRANCE?

- It has been revealed that the government has failed to restore an agreement with France, which would allow us to return 11,000 illegal immigrants back to France.
- The Conservative Party introduced the deal in 1995, which has since broken down. They claim that if re-introduced the deal would significantly reduce the number of asylum seekers within our country.
- The government however, argue that this is not the best way to reduce the number of asylum seekers within Britain as the deal had very little success when it was originally introduced.

Good morning,

I'll get straight to the point…
At Windsor Telecom you can now get an 08700 number for a straight one-off fee of £99 and no other costs ever. In fact, providing you receive enough calls, we pay you money back for each daytime call you receive.

Also, if you faxback today, your number will be listed in every UK phonebook for free.

Tempted but need to know more?
08700 numbers are national phone numbers that sit on top of your existing number. This allows you to phase your 08700 number in when it suits you. You won't lose your old number.

They're a good idea because:

1. Your 08700 number can move with you if you relocate your business.
2. You can choose a highly memorable number that will encourage potential customers to call you.
3. With an 08700 number you can operate in a wider area because your business is not regionalised.
4. You can make your company appear larger and more established by having several different numbers for different departments, i.e. one for sales, one for technical support and one for customer services. You can even have all these numbers directed to the same underlying landline number.
5. You will receive 12 months call statistics FREE OF CHARGE. We will provide an itemised list of calls received on your 08700 number which will allow you to monitor the effectiveness of your advertising and marketing.

With our service there are no ongoing rental or service charges. Other operators such as BT charge up to £300 to choose a number and £200 per annum service charge. Perhaps that's why Hewlett Packard, Boots and the Federation of Small Businesses have already purchased their 08700 numbers from us.

To find out what numbers are available call **08700 111 400** or visit our website at **www.08700.net**

Yours sincerely,

Neil Sherring

International Travel

"Now you can beat the system!"

International Travel is the monthly newsletter that is essential for the traveller. It analyses the prices for tickets around Europe so that you can always buy your tickets for less than here. For example, British Airways is not a popular airline on the continent so it makes sense to buy their tickets abroad where they are heavily discounted.
We check prices around the world so you can take advantage of them.

75% off British Airways Business Class tickets
We tell you who to ring!

- Airlines give you free upgrades if you ask
- Belgians get First Class for the Club Class Fare
- Book UK hotels in US and save 50%
- Get into First Class lounges at airports (even with your family)
- London hotels have confidential standbys - 5* only £40
- Go to South Africa and get a New York First Class for £57
- 47% off Round the World Tickets – only £593 with Air France

Our travel experts also give you regular features. Travellers always trust our famous hotel and restaurant reviews for their amusing honesty and the quality of the writing (This month - Secrets of St Tropez).

We give you the tricks of the travel trade - tricks they would rather you did not know

To receive this month's guide dial **09060 100 852** from your fax machine. Press Start when instructed and it will print out now.
